THY LOVE IS OVER ALL

(By Request)

Glad bells will ring the New Year in. And bid the Old good bye. And o'er this darkling world of sin The stars come out on high Methinks from those wide fields of light I hear sweet voices call, Soft-singing through the peaceful night "Thy love is over all.

The sailor's little children sleep Like sea blooms on a stem, While far off on the stormy deep Their father dreams of them And though the mighty north wind blows And rains unceasing fall. Deep in his trusting heart he knows Thy love is over all.

Some poor old mother softly lays The rusty sabre by, While through her open window strays The glory of the sky2-What though no footsteps greets her ear, Her name no voices call, Yet still she knoweth Thou art near,

We owe our blessings all to Thee, A most exhaustless store, They have no limit or degree But grace, both rich and poor The beggar crouching at the gate, The monarch in his hall Alike upon Thy mandates wait Whose love is over all.

Whose love is over all.

Upon the New Year altar fair What gift shalf be our part? Methicks Thy voice sighs through the air. "My child, give me thy heart." Then take u. Lord, for west or wee, I care not what befall. Enough it is for me to know The love is over all.

ELVIRA MILLER SLAUGHTER.

The Mermaids in History.

Nearly all nations have folk-lors and falry tale accounts of mermalds, and sometimes of mermen. Even the American Indians had their "womanfish" and "man-tish." The Chinese tell stories about their sen-woman of the southern seas. Sometimes mermaids and merman are represented as leaving the water and living with human beings, but more frequently they are pictured as being so attractive that they sometimes will lure human beings to destruction in the depths of the sea. These myths have been utilized by man poets, and have even been used for stories "with a moral." Most encyclopedias and Baring Gould's "Myths of the Middle Ages" give interesting histories of the myths and the extent to which they have been held by various nations.-St. Nicho-

It Takes Nerve

Everything depends upon your nerves. It is nerve force that causes the brain to direct the motion of your body; it is nerve force that causes your heart to pulsate, and send the blood through your veins, it is nerve force that causes your stomach to digest food, your kidneys to filter the blood, and the liver to secrete bile.

In fact, nerve force is the power that runs your body, so if you feel worn-out, irritable, nervous, cannot sleep, or eat well, have pain or misery anywhere, your nerves are weak, and your system rundown. To restore this vitality take Dr. Miles' Nervine which will strengthen and build up the nerves. You cannot be healthy without strong nerves. "For eighteen years Dr. Miles' Nervine and Anti-Pain Pills have been Nervine and Anti-Pain Pills have been my close companions. Early in married life, while raising children, my nerves became all worn-out—could not sleep; had no appetite: indigestion very bad, and had such awful dizzy spells. Then I began using Dr. Miles' Nervine, and at once I began to improve, and soon found myself in perfect health."

MRS. S. L. YOU'NG.

MAN IS KILLED BY EXPLOSION

OF DYNAMITE AND ANOTHER IS FATALLY INJURED THUSDAY EVENING

BODY BLOWN MANY FEET

Hanson H. Love And His Companion Were Dynamiting Stumps on M. H. & E. Right-or-

May.

Madisonville, Ky., Jan. 24. - Hanson H. Love, general superintendent Thought to Be Gun Washington Carried of the construction crew of the M. H. & E. railroad, was instantly killed Thursday morning by an explosion and a companion who was with him at the time was seriously injured.

Mr. Love and his companion were removing stumps along the right of way of the new railroad, and were at work on the farm of Robert Brown, about two miles from this place. The stumps were being removed by dynamite. A charge had been placed under one and the fuse touched off, but for some reason the explosion failed to occur as soon as it should have, and Mr. Love and his companion started back to make an investiga-

Mr. Love was in the lead, and when within a few feet of the stump a fearful explosion occurred. Mr. Love was blown quite a distance and was badly bruised and mangled, death resulting instantly.

His companion, Jake Straus, was also injured, and was rendered unconscious by the explosion. When he recovered he found the body of Mr. Love quite a distance from the scene of the explosion, and when he reached his side the man was dead.

Mr. Love had been employed by C. H. Dishman, who is the contractor of the M. H. & E. railroad, as superintendent for several months, He was a man about sixty years of age and had devoted practically all of his life to railroad building, and had handled dynamite for years.
